The FH600 is a device for forming dough sheet continuously, starting crumb, cut or mixture thereof. Is a great production team 2500/3000 Kg / Hs, for use alone or in a production line.

Due to its speed and variable thickness controlled from a digital command panel achieves an easy operation. The thickness of the FH600 output is variable from 10 mm to 40mm, which ensures the uniformity of the product throughout the process.

HiSTec designed with our innovative system and designed to withstand great efforts in the formed sheet do the FH600 is ideal for production con- nua on large scales. The innovative design allows quick and thorough cleaning doors offering access to the rollers and a folding hopper which allows the upper roller cleaning and parts remov- ibles mostly without using herramien- tas. Formed whole process sheet is generated in a sealed chamber that prevents the dough outlet to the outside maintaining a clean work area.

# FH 600

## FORMING SHEETS

Whole construction is made entirely sanitary materials and approved and its rollers are free of chromium and coated by a treatment of last generation of Chemical Nickel, by ensuring the best quality and product safety. This also has safety standards art. Installations has two twin-engine 5.5 Hp which achieves an installed power of 11hp that gives the strength and robustness for continuous use. The cutter has a built-FH600 automatic mass that regulates cutting the dough sheet to desired length, stacking or folding as required Thanks to this has the possibility of joining lines formed automatic sheet and rolling,

### ADVANTAGE

Eliminates machines and unifies the process  
reduces production space increases production  
Simple handling safer use more uniform Product No  
raw material waste Easy cleaning thanks to our  
HiSTec system Connection in automatic lines

### ACCESSORIES

- Inclined outfeed belt module inline
- lamination tape short output 2 Mts. 3
- m long tape output. Superior floured
- floured cutter Automatic Lower mass
- 
- 
- 

### DATA SHEET:

	3 x 380 V 50/60 Hz 3 x 220 V 50/60 Hz
	1500 Kg
	1.20 x 2.85 x 1.75 Mts

Mass Automatic Cutter
