AR2-LC ROTARY EMPANADA ASSEMBLER

The AR2-LC, is an automatic equipment for making empanadas starting from the disk, thanks to its rotating design it takes up very little space. Produces approx.350 patties per hour with ONE (1) single operator. The AR2-LC, is built entirely in aluminum and stainless steel, has security sensors, removable matrices, complying with all safety, health and hygiene standards.

It's easy to wash thanks to our innovative HiSTec system that allows all accessories and parts of the machine to be wet cleaned and suitable for cleaning with high pressure water.

The closure molds can be built in two materials, both Approved by our HiSTec system, They can be built in high molecular weight Plastic or Aluminum. In either of the two materials, different types of formats can be made from copetín empanadas to rotisseries.

The AR2D-LC is finally designed to deliver in 2 simple steps ... a high quality product ready in seconds. And thanks to its totally digital and educational board, it allows the simple use of the equipment.
INCLUDES: Maintenance kit
